Comments Report

2. The following questions are for instructor feedback only:

2.2) You selected No to the statement "I was satisfied with the technical assistance available, i.e. helpdesk, online tutorials, etc." Please explain your response.

- I didn't select no
- I had plenty of assistance with my assignments. The tools were very helpful. Whenever I had questions the teacher emailed back in a reasonable time span.
- No I didn't, I selected yes.
- yes

2.3) What did you like best about the course?

- I liked how the information was general information needed for a business major
- I liked learning about the available resources on campus and learning about events.
- I liked the projects that we did. I enjoyed the interview with a professor and the final project. It's good experience.
- I really liked the focus on actual business etiquette. (i.e How to properly word a cover letter),
- It is a very flexible class.
- It was a nice starting point to developing my professional communication skills.
- Laid Back But Still Professional
- Learning about the different resources around campus
- Learning how to prepare for the real world and find out strengths and weaknesses
- Learning how to write a resume
- Nothing, CBE 100 should be an optional class ,not required. All of the material in the class can easily be found by doing a few simple google searches.
- The guest speakers
- The hands-on examples and easily applicable learning concepts.
- The open ideas and way to express yourself
- The realistic learning tools given in class. things that were discussed were very relevant.
- The teacher was very dedicated to the class
- You learn good skills to progress through college.
- there is no final

2.4) How could your experience have been improved?

- An online option
- By not being required to take the class.
- Have online courses instead of meeting.
- I Couldn't Find Any Flaws
- I could've use a little more explanation on one or two assignments, but other than that it was a good class.

- If it was a bit more tailored towards specific majors as the application and experience of getting jobs vary depending on the field you're applying to.
- It could have been improved by having more hands-on activities.
- Maybe a few more ways to interact with businesses, we had one good opportunity but it would be neat if we could have a few more.
- More explanation on projects
- More feedback and work time in class
- More ways to connect with bussiness
- Once we were done with the lesson, don't add useless filler. Just let us leave with the valuable information you've already given us.
- She did an amazing job of teaching this class
- We could've done a few more projects based on our majors and skills.
- it was fine the way it was, but probably some test because we took notes and I don't see a point in taking notes if there is no test
- more real life examples. more speakers from different companies

- none
